

HYSUCAT AT THE LOUIS VUITTON AMERICA'S CUP WORLD SERIES

MAY 7-8, 2016.

■ in Boat Races & Regatta, Power Boating

Hysucats were the official VIP chase boat supplier to follow the foiling, wingsailed AC45 catamarans on the course.

Race officials chose the Hysucat over other ribs because the Hysucat is able to keep up with the catamarans in heavy chop while still giving a comfortable, safe ride that leaves little wake.

Hysucats will also supply the Red Bull Youth America's Cup with support boats for the 16 youth teams from around the world

This competition pits the most promising youth athletes against each other, training and racing utilizing the latest technology. Two Hysucats are also scheduled to shuttle VIPs and AC crew from their bases to the race course in Bermuda during the big event in 2017.
